Vega Strike is a first-person space trading and combat simulator, developed for Microsoft Windows,

POSIX Unix-like operating systems such as Linux, FreeBSD and Mac OS X systems.

Many of the core game mechanics of Vega Strike are indirectly inspired by Elite.

The successors to Elite, namely Wing Commander: Privateer, were particularly strong influences.

Released under the GNU General Public License, Vega Strike is free and open source software.

See above links for more inclusive details.
